EDUGENIE – AI-POWERED LEARNING ASSISTANT

EMPATHY MAP – LEARNER PERSPECTIVE

USER / LEARNER

Primary perspective used for the project: a student or learner seeking academic assistance.

SAYS

- I need an explanation in simple language.
- I want to understand this question.
- I want to practice what I learned.
- I have a long text and need the important points.
- I want to know what I should learn next.

THINKS

- Is this concept easier to understand if it is explained step by step?
- Did I understand the topic correctly?
- Which topics should I study before moving to advanced material?
- What are the important points for revision?

DOES

- Enters questions or topics.
- Provides educational text for summarization.
- Requests a quiz after learning a topic.
- Requests a learning sequence for a subject.

FEELS / NEEDS

- Needs clarity when a topic is difficult.
- Needs concise revision material.
- Needs structured practice.
- Needs guidance when planning a learning sequence.

PAIN POINTS

- Complex terminology.
- Long study material.
- Lack of structured practice.
- Uncertainty about learning order.

EXPECTED BENEFITS

- Fast academic assistance.

- Simplified explanations.
- Generated quizzes.
- Concise summaries.
- Structured learning recommendations.
