

PROBLEM STATEMENTS

EDUGENIE – AI-POWERED LEARNING ASSISTANT

Problem Statement 1 – Academic Questions

Students may encounter questions while studying and need a quick way to obtain an understandable response.

Problem Statement 2 – Difficult Concepts

Technical or academic concepts can be difficult for beginners to understand without a simplified explanation.

Problem Statement 3 – Self Assessment

Learners need opportunities to test their understanding after studying a topic.

Problem Statement 4 – Revision

Large educational passages can be difficult to revise quickly because important information is distributed across lengthy text.

Problem Statement 5 – Learning Sequence

A learner may know a subject they want to study but may not know a logical progression from basic to advanced topics.

Unified Problem

The project addresses these related learning-support needs through one AI-powered learning assistant rather than separate tools for each activity.
