

PROPOSED SOLUTION

EDUGENIE – AI-POWERED LEARNING ASSISTANT

PROPOSED SOLUTION

EduGenie is a modular AI-powered learning assistant.

INPUT

The user provides a question, topic, quiz material, long text, or learning topic depending on the selected feature.

PROCESSING

1. Frontend collects the user input.
2. FastAPI receives the request.
3. FastAPI routes the request to the relevant module.
4. The module prepares the AI request.
5. Gemini 3.5 Flash or LaMini-Flan-T5-783M processes the request.
6. The generated result is returned to the backend.
7. The result is presented through the web interface.

OUTPUT

The user receives an educational response appropriate to the selected learning function.

MODEL RESPONSIBILITIES

Gemini 3.5 Flash:

- a. Question answering
- b. Quiz generation
- c. Text summarization
- d. Learning path generation

LaMini-Flan-T5-783M:

- a. Concept explanation
