

UI DESIGN DESCRIPTION

EDUGENIE – AI-POWERED LEARNING ASSISTANT

UI DESIGN DESCRIPTION

The documented frontend is built using HTML and CSS.

MAIN INTERFACE

The main page provides access to the five major capabilities:

1. Explanation
2. Q&A
3. Quiz
4. Summary
5. Learning Path

USER INTERACTION

The user selects a function, enters the required information, submits the request, and receives the generated output.

DESIGN GOALS

- a. Simple access to multiple learning functions.
- b. Clear separation of different tasks.
- c. Readable AI-generated results.
- d. Direct interaction with the FastAPI backend.

IMPLEMENTATION FILES

- templates/index.html – interface structure.
- static/style.css – visual styling.
