

EDUGENIE – AI-POWERED LEARNING ASSISTANT

FUTURE ENHANCEMENTS

The following are the possible expansions:

1. Voice Interaction – voice-based input and speech output.
2. Multilingual Learning – explanations and learning support in multiple languages.
3. Mobile Application – smartphone and tablet access.
4. Learning Progress Tracking – monitor topics, quiz results and study activity.
5. Gamification – badges, achievements, challenges and learning streaks.
6. Adaptive Learning – use learning activity and quiz results for personalized paths.
7. Group Learning – collaborative learning activities.
8. Teacher and Parent Dashboards – learner progress monitoring.
9. LMS Integration – integration with learning management systems.
10. Image and PDF Processing – process documents/images and answer questions from them.
11. Notifications – reminders and learning-schedule support.
