

EDUGENIE – AI-POWERED LEARNING ASSISTANT

PROJECT DEMO PLANNING

PRE-DEMO CHECKLIST

1. Verify Python installation.
2. Create and activate a virtual environment.
3. Install requirements.txt.
4. Configure the Gemini API key locally.
5. Start the FastAPI server.
6. Open <http://127.0.0.1:8000>.
7. Verify that the main interface loads.
8. Prepare representative inputs for all five features.
9. Capture screenshots of the outputs.
10. Prepare the explanation of architecture and AI model roles.

DEMO SEQUENCE

1. Introduce EduGenie.
2. Explain the learning problem.
3. Show the main interface.
4. Demonstrate Q&A.
5. Demonstrate concept explanation.
6. Demonstrate quiz generation.
7. Demonstrate summarization.
8. Demonstrate learning path generation.
9. Explain FastAPI and AI integration.
10. Explain future enhancements.
