

EDUGENIE – AI-POWERED LEARNING ASSISTANT

SCALABILITY & FUTURE PLAN

The modular structure of EduGenie provides a foundation for extending the application.

POSSIBLE EXTENSIONS

- Voice interaction.
- Multilingual learning.
- Mobile application.
- Progress tracking.
- Gamification.
- Adaptive learning.
- Group learning.
- Teacher/parent dashboards.
- LMS integration.
- Image and PDF processing.
- Notifications.

SCALABILITY PRINCIPLE

New learning modules can be introduced as separate components while continuing to use the FastAPI backend as the communication layer.

FUTURE AI CAPABILITY

Future versions could extend document processing and personalization while preserving the separation between the user interface, backend, and AI services.
